Minitab Connect® 7.10

Table of Contents

1. New Features in Minitab Connect 7.10

Recently Accessed Taskpane

*   There will be a new icon that will be used to access the "Recently Accessed" taskpane.
*   The icon replaces the old "Window Switcher" icon in the header bar.
*   The list starts out empty but populates as the user navigates to different items (tables, dashboards, forms, etc.). If a user clicks on any of these items they should be routed directly to that item.

2. Maintenance Items in Minitab Connect 7.10

*   Expand Redis Cache Support
    o   With the initial release of Redis caching, custom SQL was not supported due to complexities
    o   Utilize a non-deterministic check on the query to be executed to validate whether or not the query can be cached
*   PHPSpreadsheet upgrade to 2.3.5
*   Deprecate:
    o   Google Analytics Connector
    o   TMM Short URL Statistics Connector
    o   Slack Connector
    o   Slack data process

3. Known Problems and Workarounds
